

service_areas

Location: planning\service_areas.shp

Description

This layer consists of service areas used in the Bay County Comprehensive Plan dated December 1999. This layer is for growth management, service delivery, and the Wide Open Spaces Strategy (WOSS). The layer consists of polygon features.

Source

In July 1998, Bay County GIS staff created in ArcInfo a **woss** coverage, including service areas and rural community special treatment zones. The Planning Manager supplied a paper map with the WOSS areas highlighted. Features from the existing coverages **county** and **plss** were used to create the service areas. (For more information, see **county** and **plss** documentation.)

In January and June 1999, Cedar Creek area at the end of Resoto Beach Rd was added to suburban service area. Also, rural community special treatment zones were removed to a separate **rural_cmunity** coverage (see **rural_cmunity.doc**). The coverage was converted to a shapefile. See Map 1 Wide Open Spaces Strategy in the Comprehensive Plan.
